# #16 Instructions.Ovation

**ABOVE CEILING BALLAST ACCESS***

1.) Remove screw at one end of ballast access plate.
2.) Slip ballast access plate free of housing retention slots and lift out to reveal ballast.
3.) Remove ballast from plate by removing ballast mounting screw and slipping ballast free of retention slots.
* Above ceiling ballast access not available for multi-ballast, T5 or emergency-lighting models.
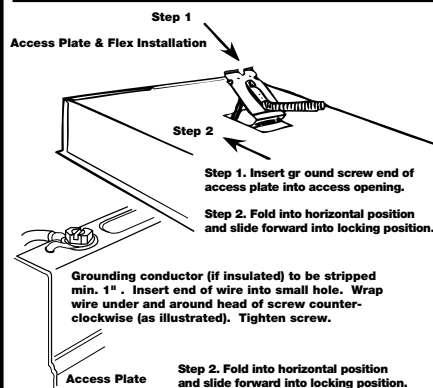

BELOW CEILING BALLAST ACCESS*

1.) Remove perforated lamp shield(s) by shifting off of mounting bolts.
2.) Remove lamps.
3.) Remove main reflector(s).
4.) Remove ballast channel cover (center-mount models only).
5.) Remove ballast(s) by removing ballast mounting screw and slipping ballast free of retention slots.

* Illustration shows Center-Mount model. Slide-Mount models have two perforated lamp shields, one main reflector (retained with screws to each side), and no channel cover. Ballast access sequence remains the same.

WARNING: RISK OF FIRE AND ELECTRIC SHOCK. THIS PRODUCT IS TO BE INSTALLED BY A QUALIFIED ELECTRICIAN ONLY.

ATTENTION: CONTRACTOR

Step 1
Access Plate & Flex Installation

Step 2

Step 1. Insert ground screw end of access plate into access opening.

Step 2. Fold into horizontal position and slide forward into locking position.

Grounding conductor (if insulated) to be stripped min. 1". Insert end of wire into small hole. Wrap wire under and around head of screw counter-clockwise (as illustrated). Tighten screw.

Access Plate

Step 2. Fold into horizontal position and slide forward into locking position.
