- *All-steel construction*

- *Adjustable support hangers offer easy installation and fan positioning*

Ceiling Fan Box FFS-561L

INTRODUCING THE ECONOMICAL CEILING FAN BOX THAT'S EASY TO INSTALL AND BUILT TO LAST.

Ceiling Fan Boxes for use in Residential and Commercial Applications

Quality, efficiency and value now live in one box. Introducing the light-commercial grade ETP Ceiling Fan Box. This all-steel ceiling fan/fixture box delivers the rugged dependability that is built into every ETP product. The new ETP Ceiling Fan Boxes fit every application quickly and easily with adjustable and direct mounting options for rehab, retrofit and new construction. Adjustable hanger bars fit 16" to 24" spans and allow for perfect placement of fan or fixture despite the spacing of the supporting joists. Additionally, our retrofit screw hanger bars allow for the boxes to be installed with minimal cutting required to an existing ceiling. Direct mounting applications include brackets that enable side attachment to a beam or joist. The boxes come fully assembled, self-contained and ready to install with no additional loose parts that can be lost and never found. Every box features multiple knockouts, a plastic non-metallic sheathed cable connector, four combination hex/Phillips installation screws, two fan/fixture bracket attachment screws and instruction sheet.

CEILING FAN BOXES

Features:

The boxes come assembled and are ready to install with plastic non-metallic sheathed cable connector, ground screw, hardware and instruction sheet. Every box features multiple knockouts, four combination hex/Phillips installation screws and two fan/fixture bracket attachment screws. Support hangers are adjustable from 16" to 24".

Direct Mounts:

- Side and underneath mounts
- NEC 422-181 for up to 35 pounds of fan load or 70 pounds of fixture load

New Construction Ceiling Fan Box with Support Bar Hanger:

- Intended for new work installations
- Easy slide brace allows for easy box positioning during installation
- Expandable for joist spacing from 16" to 24"

Rehab Ceiling Fan Box with Support Bar Hanger:

- Intended for old or retrofit work installations
- Square section tube is easy to grip and install
- Expandable for joist spacing from 16" to 24"

Use:

For mounting ceiling fans or fixtures to ceilings in existing or new construction. Support hangers are UL listed for up to 35 pounds for fans and 70 pounds for fixtures. Direct mounts comply with NEC 422-181 for up to 35 pounds for fans and 70 pounds for fixtures. Adjustable hangers are used for mounting the fan or fixture between joists or beams. These hangers also allow the box to be positioned where desired anywhere between the joints. Direct mounts enable either underneath or side mounting of the box to a joist or beam.

Third Party Certification:

UL Listed
CSA Certified

Under the EGS Electrical Group family of brands, ETP is the value-driven, quality supplier of steel connection accessories for commercial, residential and light-industrial applications.

EGS Electrical Group is a worldwide manufacturer of electrical products for virtually every type of environment. For over 150 years, our brands have been providing a rich tradition of long-term, practical, high quality solutions.

Distributors, contractors, engineers, electricians and site maintenance professionals around the world trust EGS brands to make electrical installations safer, more productive and more reliable.

EGS is organized into three focused businesses that provide distributors and end-users expert knowledge and excellent service.

Electrical Construction Materials

This group manufactures a broad range of electrical products including conduit and cable fittings, plugs and receptacles, enclosures and controls, conduit bodies, and industrial lighting. Whether the application is hazardous location, industrial, or commercial, the ECM group has the products to meet your needs.

Power Quality Solutions

These offerings include the broadest power quality line including UPS, power conditioners, voltage regulators, shielded transformers, surge suppression devices and power supplies.

Heating Cable Systems

These brands offer a broad range of electrical heating cable products for residential, commercial, and industrial applications.
