

Wiremold
Evolution 6AT Series Flush Style Cover Assembly
Part No. 6CT2BZ

Die-cast aluminum cover assembly. Cover assembly is available in the following powder coated finishes: (BK) black, (GY) gray, (INK) nickel, (BS) brass, (BZ) bronze, and (AL) aluminum. 6CT2 Series cover assemblies designed for use with 6STCP, 6STC, and 6STCPAV Poke-Thru Stem Assemblies. Includes one (1) 6TS Tile Shim. NOTE: Add suffix "TR" to the end of the part number to indicate tamper-resistant cover assembly. Tamper-resistant versions are secured with a single tamper-resistant screw.

Features & Benefits

The new Evolution Series poke-thru design includes all metal die-cast aluminum cover assemblies, with two unique spring-loaded slide egress doors. No clumsy flip lids to get broken or cause an added trip hazard.

The cover opens a full 180 degrees with two unique spring-loaded slide egress doors to keep wires, connections and people safe. A flush style cover for tile applications allows the Evolution Series Poke-Thru Devices to be adjusted to the same level as the top surface of the floor covering.

The flush cover is designed to be used for tile or wood floors and in higher traffic applications, where a low profile is a must.

Specifications
