

WIREMOLD®

Ratchet-Pro™ Series Floor Boxes

INTRODUCING A FULL LINE OF FLOOR BOXES WITH EXPANDED CAPACITY.

Wiremold Ratchet-Pro Series Floor Boxes are renowned for easy installation. And now the line has expanded to include two steel/nonmetallic hybrid floor boxes and an all-nonmetallic box. Each box comes complete with easy cutoff post pour height adjustments, ratcheting teeth cover attachments and 2" trade size conduit feeds, which allows one box to bring more power, communications and A/V services to open spaces. That means fewer boxes and fewer installations. Plus, the innovative box design reduces installation time every step of the way. So you get all the capacity and none of the hassle.

Wiremold Ratchet-Pro Series Floor Boxes are great for open-space floor construction of office buildings, educational facilities, malls, shopping centers and department stores.

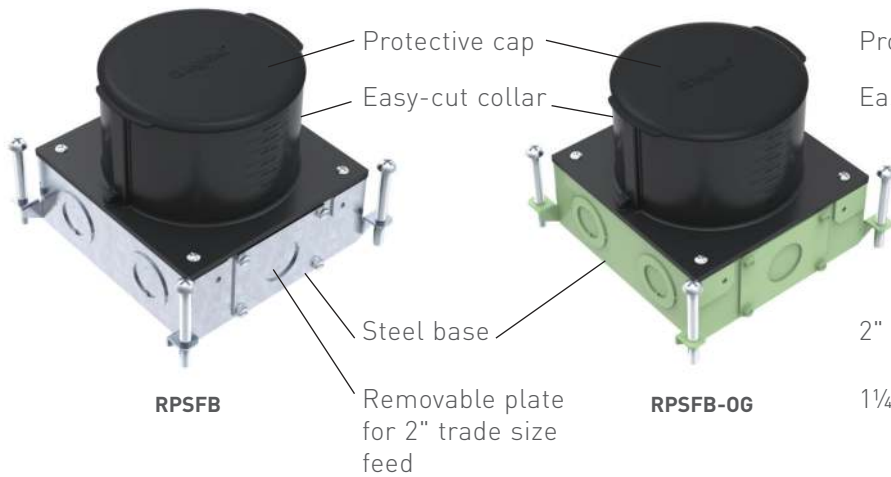

**INCLUDES THE LARGEST
CONDUIT FEED IN THE INDUSTRY.**

 **legrand**®

Wiremold Ratchet-Pro Series Floor Boxes are simple and strong. All boxes are designed to work in above-and/or on-grade applications. Each comes with a durable protective cap, easy-cut collar and the ability to feed services through ¾" up to 2" trade size conduit, all while maintaining a shallow 4" (102mm) deep concrete pour. Boxes can be paired with pre-assembled surface-style, low profile Ratchet-Pro covers available in black, gray, brass, aluminum, all brass and all aluminum.
